Overwhelming National Response

IINA-2026 witnessed an overwhelming response from across the country, receiving more than 250 nominations representing a diverse range of sectors including:

- Building Construction
- Transportation Infrastructure
- Urban Development
- Water Resources
- MEP Services
- Industrial Infrastructure
- Smart and Sustainable Projects
- Public Sector Undertakings
- Government Departments
- Construction Professionals and Project Managers

The large number of nominations reflects the growing credibility and acceptance of IINA as a national platform for recognizing excellence in infrastructure development.

Rigorous Evaluation Process

All nominations underwent a comprehensive multi-stage evaluation process involving detailed scrutiny by domain experts and industry professionals. The assessment focused on:

- Innovation and Technology Adoption
- Quality and Workmanship
- Sustainability and Environmental Responsibility
- Safety Management Practices
- Project Impact and Replicability
- Professional Excellence and Leadership

The transparent and objective evaluation process ensured that only the most deserving organizations and individuals were recognized.

Recognition Across Diverse Categories

Awards were presented across multiple categories covering:

- Construction and Infrastructure Projects
- MSME Excellence
- MEP Engineering
- Safety and Quality Management
- Sustainable Development
- Innovation and Technology
- Public Sector Initiatives
- Professional Achievement Awards
- Emerging Leaders and Lifetime Contributions

The awardees showcased remarkable examples of engineering excellence, innovative practices, effective project management, and commitment to nation-building.

A Platform for Knowledge Sharing

Beyond recognition, IINA-2026 served as a vibrant platform for interaction and exchange of ideas among industry stakeholders. Participants discussed emerging challenges and opportunities related to:

- Sustainable Infrastructure Development
- Skill Development and Workforce Availability
- Technology Integration
- Quality Assurance
- Construction Safety
- Future Infrastructure Requirements of India

These deliberations reinforced the need for collaboration among government agencies, industry bodies, educational institutions, and private enterprises.

Strengthening the Culture of Excellence

The success of IINA-2026 demonstrates the growing commitment of the construction and infrastructure fraternity towards benchmarking, continuous improvement, and recognition of best practices. Such platforms inspire organizations and professionals to adopt higher standards of quality, safety, innovation, and sustainability.

Invitation for Wider Participation

ISDA extends its sincere gratitude to all nominees, award winners, jury members, sponsors, partners, and participants who contributed to the success of IINA-2026.

Building upon this success, ISDA invites:

- Central and State Government Departments
- Public Sector Undertakings (PSUs)
- Urban Local Bodies
- Infrastructure Developers
- Construction Companies
- Consultants and Architects
- MSMEs
- Academic and Research Institutions

Individual Professionals to participate actively in future editions of IINA and showcase their achievements on a national platform.

Looking Ahead IINA aims to become India's most respected recognition platform for excellence in construction and infrastructure. Through wider participation and knowledge sharing, the

initiative seeks to identify, celebrate, and promote best practices that contribute to the creation of safe, sustainable, resilient, and world-class infrastructure for the nation.

Together, let us recognize excellence, inspire innovation, and build a stronger India.
